SCORES Native 0-1 bond scores; lines join adjacent assessed bonds only (no smoothing). Dashed line = 0.5 display threshold; gaps = unassessed.

RED BOND MARKS All four intracellular tracks assess the bond; >=3 reach 0.5. Four beads show support (filled = hit, open = miss), not probability.

MHC WINDOWS <=2%/<=5% rank; display favors intended overlap, then allele diversity, then rank. Internal red ticks are pre-binding cut evidence; all predictions remain in CSV.
